To: Daniel Sundmark <daniel.sundmark@mdh.se>, Emelie Engström <emelie.engstrom@cs.lth.se>, Lars-Ola Damm <lars-ola.damm@ericsson.com>, Per Runeson <per.runeson@cs.lth.se>, Robert Feldt <robert.feldt@gmail.com>, Thomas Arts <thomas.arts@ituniv.se>, Thomas Thelin <thomas.thelin@se.abb.com>, Wasif Afzal <wasif.afzal@bth.se>, Dejan Baca <dejan.baca@ericsson.com>

Dear SWELLers,

I'd like you to preliminary set aside March 4 to come to BTH and attend a SWELL seminar by Prof. Anneliese Amschler Andrews:

<http://web.cs.du.edu/~andrews/>

http://www.informatik.uni-trier.de/~ley/db/indices/a-tree/a/Andrews:Anneliese_Amschler.html

This is particularly important for SWELL PhD students, but everyone is of course welcome!

I will take the time to also discuss some general issues regarding SWELL with the phd students, follow up on their progress from a SWELL perspective and also discuss future requirements from Vinnova on SWELL and the phd students participating in SWELL.

All coordinators please inform your phd students about this so that they can book that date (any costs will be taken care of by SWELL.) I'll come back with more information when we have set the date and content with Prof. Andrews.

/Richard
